INTENT

The intent of this report is to seek Council's approval to award a contract for the construction of a roundabout at 128 Street and Crescent Road.

BACKGROUND

At the July 22, 2024 Regular Council Public Hearing meeting, Council approved Corporate Report No. R148; 2024, which identified and prioritized a set of strategic transportation short-term projects designed to support the City's growth. Among these projects is the 128 Street and Crescent Road Roundabout.

DISCUSSION

Scope of Work

The construction package related to this contract consists of the installation of a roundabout at the intersection of 128 Street and Crescent Road, which will improve traffic flow through the intersection and provide safety improvements. The location of the project is reflected on the map provided in Appendix "I". In addition, an artistic rendering depicting an areal view of the completed project can be found in Appendix "II".

The contract permits construction from 7:00 a.m. to 10:00 p.m., Monday through Friday, in compliance with the *Surrey Noise Control Bylaw, 1982, No. 7044*.

Invitation to Tender Results

An Invitation to Tender followed the City's Purchasing Bylaw and was publicly posted on the BC Bid and City of Surrey websites. Tenders for the subject contract were opened on January 31, 2025 with the following results:

Evaluation

The submissions were reviewed for accuracy and completeness. There was one arithmetic error that had no bearing on the outcome of the tender process. All submissions included the required 10% bid bond, and were signed on the Tender Form.

The low bidder, BA Blacktop Infrastructure Inc., has provided a Consent of Surety for a Performance Bond and a Labour & Materials Bond, and agreed to complete the work within 80 working days, as stipulated in the contract. BA Blacktop Infrastructure Inc.'s past performance on previous work has been satisfactory. They have no outstanding legal claims against the City. It is recommended that BA Blacktop Infrastructure Inc. be awarded Contract No. 1722-020-11.

Project Schedule

The contract work is expected to start in February 2025 and be completed by June 2025.
