

NICOMEKL RIVERFRONT PARK

☰ Closed Park Areas

Question. If Nicomekl Riverfront Park is a future park, why are some park areas already open?
Answer. The park is being constructed in phases and some areas have already been constructed, like the Nicomekl Dog Off-Leash Area (3435 150 st), which was opened in March 2022. Additionally, some areas have been open for quite a few years, and have minor park amenities in them like trails. These areas will be upgraded as part of the Nicomekl Riverfront Park project.

- Park Properties Open to the Public**
- 103F Greenbelt (14699 Winter Crescent, by Anderson Creek only, not 3600 King George Blvd)
